

Dear Sir or Madam

Dear friends

Today's newsletter looks at anti-Zionist and Israel-hostile activism at ETH Zurich, the insidious attempt to equate Israel with Nazi Germany and the war in Gaza with the Holocaust, and two motions in the Council of States and the National Council targeting Iran's Revolutionary Guards.

Today's topics

Freedom misused. ETH Zurich's leadership itself is pursuing a tough line against anti-Zionist demonstrations and guest speakers. But the Architecture Department at Switzerland's most prestigious educational institution is doing the opposite, opening the door wide to anti-Zionist and anti-Israel activities and research projects. The fact that it is allowed to do so is justified by citing "freedom in research and teaching". [The ETH Architecture Department promotes hostility towards Israel and anti-Zionism - FokusIsrael](#)

Insidious equivalence. Among the most insidious attacks on Israel are the attempts to equate the war in Gaza with the Holocaust and to label Israel a Nazi state. Jan Kapusnak examines this outrageous distortion of facts, which is also being spread by parts of the Western left. Branded “terrorists”. Iran’s Revolutionary Guards have killed tens of thousands of demonstrators from their own population in order to preserve the mullah regime — and thus their own survival. For that reason, they should now also be classified as a terrorist organisation in Switzerland. This is what two motions in the Council of States and the National Council are calling for.
